Welcome Message

Raghu Babu Gunturu FOUNDER & DIRECTOR

“ The entity management service providers are fragmented, with either large established players or small unorganized entities dominating the market. SimplyBiz aims to bridge this gap by providing structured, reliable, and comprehensive services tailored to the needs of early-stage and growth-stage companies.

India's economy, growing at a robust 6-7% annually, presents a fertile ground for the expansion of professional services. With nearly 63 million MSMEs, a significant number of which are in the growth stage, there is a substantial demand for professional services in compliance, legal, accounting, and taxation.

Currently we are serving 100+ clients and our engagement model includes Subscription-based and project-based for one-time transactions. Our client profile includes overseas SMBs having parentage from various global locations, institutionally funded companies, startups, emerging and growth-stage companies from the old economy to internet-age companies.

SimplyBiz has carved a niche by identifying and capitalizing on the growth of Global Capability Centers (GCCs) in India. With a 60% growth in GCCs since 2015 and over 960 GCCs operating in a shared service model, we have pioneered offerings tailored for Indian Tech Capability Centers (ITCC). Our services enable overseas companies to set up and manage their tech centers in India, covering everything from entity formation to ongoing management, allowing them to focus on core business activities of People, Productivity and Profit.

SimplyBiz is poised to capitalize on the growing demand for professional services among MSMEs and GCCs in India. With a comprehensive service offering and a client-centric engagement model, we aim to become the trusted partner for businesses on their journey from SMBs to MNCs, driving compliance, efficiency, and strategic growth.

"CredRight has been working with Simplybiz for over 5 years now & would highly recommend the team. The team is not only expert in the Secretarial domain but also very pro-active & forthcoming to help run the company in the best possible manner. I would like to highlight the team's expertise when it comes to fund-raise. Very well versed with multiple forms of fund raise like private placement, rights issue and ability to liaise directly with investor set to fasten up the process. Even their ability to help fast track the entire FC-GPR/FC-TRS filing is un-paralleled. We have always felt that the team is our own in-house expert instead of an outsourced consultancy."

Naveen Puttagunta, CEO

"I found the SimplyBiz team to be methodical and thorough. Their task was to perform a compliance due diligence check going over a 15 year period and I was very happy with their level of scrutiny as well as the speed with which they completed the project. I was impressed with the structure and organization of how they presented their findings helping us prioritize the corrective actions. I like their consultative approach of helping us identify the risks associated with the various findings so that we can make an informed decision regarding the next steps."
